Before starting, please read license agreement:

mudescd/Xidw/Instructions/MUDESCD_instructions.html

MUDES Quick Start Instructions (under Windows OS or Macintosh Virtual PC):

Double Click on mudescd/Xidw /XIDRO.exe

In the XID Database Selection Dialog Window:

    Click on the + beside Xidw folder

    Click on any of the displayed data bases to read a description of that data base

    Double Click on a data base to launch it

In XID (any data base):

    Click on Help to learn how to use the XID system

I recommend that you go through the User's Guide and Tutorial that is in the XID Help menu to become familiar with how the program works

You can view the XID User's Guide and Tutorial in a Web Browser by loading:

mudescd/Xidw/guide.htm
and
mudescd/Xidw/Help.htm

You can learn about the MUDES project by loading:

mudescd/Xidw/mudes/mudes.htm

You can learn about characters used in the MUDES and review tree wood taxa by Families by loading:

mudescd/Xidw/Tutorials/tmudestut.html

This is the text on the back.
